INTERNSHIP EXPERIENCE

Developer Role In UltraGits

Ultra Global It Solutions (Ultragits) | Chennai, Tamilnadu

Aug-Sept 2023

- Developed and deployed a website for a service apartment.
- Improved website performance and user experience.
- Gained experience in SEO and digital marketing strategies.
- Worked on optimizing backend and frontend components.

PROJECTS

• IoT Based Vehicle Emission Monitoring and GPS Tracking

- Technologies: ESP32, Neo-6M GPS, Firebase, Google Maps API.
- Designed a real-time emission monitoring system with integrated GPS tracking.
- Improved air quality monitoring efficiency, providing live updates.

• Her Guardian-Women's Safety Monitoring System

- Technologies: VGG16, FaceNet, OpenCV, ESP32, GSM
- Developed a real-time AI-driven safety system for behavior analysis.
- Integrated SOS alerts via SMS/WhatsApp, reducing emergency response time.
- Implemented solar-powered IoT for sustainability and continuous operation.

CERTIFICATIONS

- Agile Scrum Essentials
- Introduction to Packet Tracer
- Hackathon Certificate
- Stockothon
- Password by Linux Club

ACHIEVEMENTS

- [IITInventive|IITM|2024](#)
Participated in **IIT Inventive Hackathon** conducted by **IIT Madras**, representing my IoT project and got shortlisted.
Developed and showcased an innovative IoT-based solution during the competition
- [Stockothon | VIT | 2023](#)
Participated in VIT Stockothon conducted by VIT Chennai, Trading Competition, Stock Analysis

PUBLICATIONS

- Research paper titled "IoT-based Vehicle Emission Monitoring using Firebase Sensor Data Integration with Google Map API", presented at the **5th International Conference on Smart Data Intelligence (ICSMDI-2025)**, Kongunadu College of Engineering and Technology, Trichy, Tamil Nadu.
